

# THE NEETI PURSUITS

---

TOGETHER – STRIVING FOR EXCELLENCE **(JULY 2024)**

## Academic Strides:

**1st – 5th July:** Dr. Harsh Gupta, along with his colleague from Mumbai Dr. Arpit Sharma, attended 10th international summer school at the university of Brescia in Italy from the 1st-5th July 2024.

It comprised of 3 days of cadaver dissection and 2 days of live surgeries.

The course was aimed to highlight the surgeries of the anterior skull base and was attended by delegates from all over the globe.

**126th July:** Dr. Gauri Kapre delivered a lecture on “Challenges in Management of Sinusitis in age of Antibiotic Resistance” as part of CME.

**28th July:** Dr. Gauri Kapre conducted an instructional course on Stroboscopy in collaboration with AOI Vidarbha. The program included lecture and live demonstrations of Stroboscopy. It was attended by over 30 delegates who appreciated this initiative of AOI and Neeti Clinics.

**126th July:** Dr. Gauri Kapre delivered a lecture on “Challenges in Management of Sinusitis in age of Antibiotic Resistance” as part of CME.

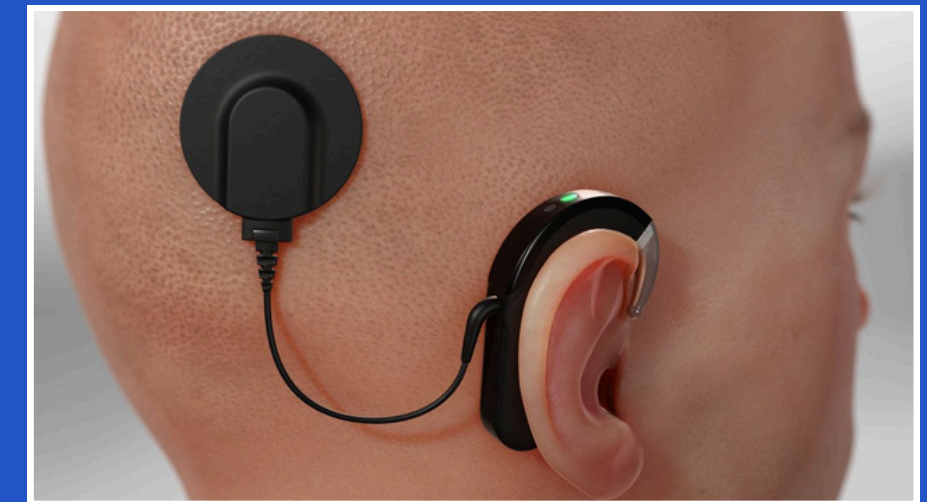

**28th July:** Dr. Gauri Kapre conducted an instructional course on Stroboscopy in collaboration with AOI Vidarbha. The program included lecture and live demonstrations of Stroboscopy. It was attended by over 30 delegates who appreciated this initiative of AOI and Neeti Clinics.

## Interesting Cases:

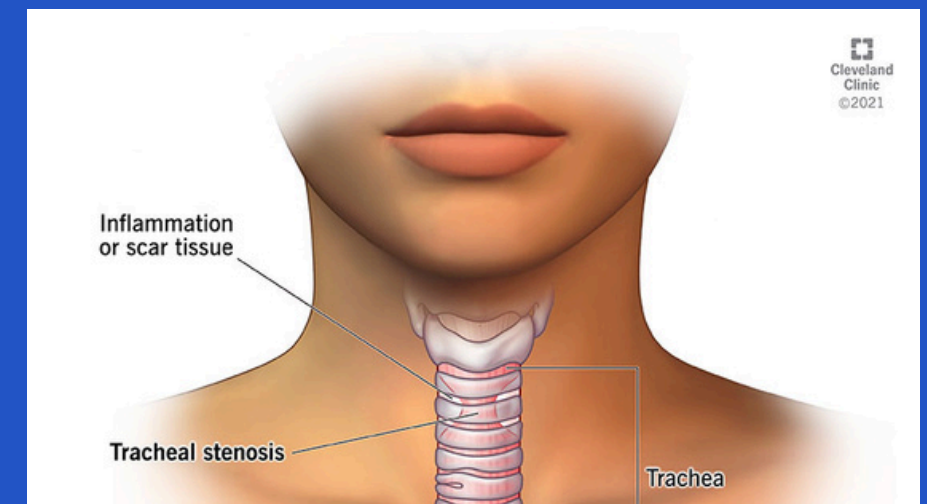

### COCHLEAR IMPLANT:

A high-end cochlear implant surgery was performed by Dr Harsh independently. Dr Gauri and Dr Harsh are now routinely performing cochlear surgeries independently. Even adult cochlear implant has been performed successfully and “switch on” for the patient gave good response.

### TRACHEAL STENOSIS:

A young boy developed tracheal stenosis as he was on ventilator following surgery for VSD. Subsequently after tracheostomy tube was removed he experienced respiratory distress. The patient consulted in Mumbai where he was advised open surgery. On airway assessment we found that there was narrowing at the level of vocal cords and rest of the airway was normal. Kashima procedure was performed on this patient and airway restored.

## **ORAL MALIGNANCY WITH CORONARY ARTERY DISEASE:**

A middle aged male patient had to undergo surgery for Ca Lip, Mandibulectomy, Neck Dissection and Reconstruction. On Pre Anesthesia Evaluation the patient was found to have significant narrowing of coronary arteries, requiring CABG for the patient to be fit for cancer surgery. But in that case cancer surgery would have to be postponed by at least 3 months. The patient was operated at a cardiac centre where CABG was done and in same sitting immediately cancer surgery was performed. The patient recovered without any complications.

## **TONGUE CANCER SURGERY WITH MULTIPLE MEDICAL CO MORBIDITIES:**

A 65-year lady had to undergo surgery for Ca tongue with neck dissection. She had H/O Hypertension, Diabetes, Asthma and Cardiac Failure. The patient would get breathless even after walking few steps. With thorough cardiac evaluation and due care the patient underwent successful surgery and made smooth post operative recovery.

## Neeti Academics:

BLS Training Programme. ISA Nagpur conducted BLS and CPR training for staff of Neeti Clinics. All staff members got hands on experience on the CPR mannequin. Dr Sonali Khobragade, Associate prof. dept of Anesthesia IGGMC and Dr Tapasya Dhawne, Consultant Anesthesiologist, Avanti Cardiology Institute conducted the training, All staff members were given certificate of participation.

## Welcome:

Neeti Clinics welcomes Dr. Kyvalya as observer for 2-year FHNO fellowship programme. She completed her MDS in RV Dental college, Bangalore. She worked as a medical officer in ECHS, Vayusena Nagar, Nagpur for 2 years.

## What's New at Neeti Clinics:

**Bien Air Drill** has been purchased. It ensures very precise and fine drilling during ear surgery

**Stroboscope:** Neeti Clinics has purchased Olympus Stroboscopy system for detailed evaluation of voice disorders. We now have all state of the art equipment in laryngology with chip on tip flexible scope with NBI (narrow band imaging)

## Congratulations

# NEETI CLINICS CLEARS NABH ASSESSMENT SUCCESSFULLY

Assessment for NABH accreditation of Neeti Clinics took place on 20th July. Dr Harish Tourani from Indore was the assessor. At the outset Managing Director Dr Madan Kapre made the opening presentation about Neeti Clinics. Dr Tourani visited all the departments and interacted with staff members. He also scrutinized all the documents. Dr Tourani was very pleased with work done at Neeti Clinics and found that we are following all NABH protocols. He pointed out only 2 minor corrections which have been uploaded and approved. Credit for this goes to entire staff of Neeti Clinics. Everyone has worked hard for the assessment. Let us continue to follow all NABH practices in our daily working routine.

## Coming up in August:

**8th to 11th August** National Conference of IAOHNS at Mangalore.

Dr. Madan Kapre to deliver “Presidential Oration” conduct pre conference cadaver dissection workshop and deliver talk.

Dr. Abhishek, Dr. Gauri and Dr. Neeti invited to deliver talks.

**THANK YOU**
